

# Operational efficiencies and great-tasting burgers.

The new Prince Castle® Flame King Broiler features a four-lane continuous feed that averages a whopping 85 burgers per lane/hour. Turn up your turnout with consistent quality burgers that deliver that “true char” flavor thanks to the independently controlled top and bottom infrared burners. From its patent-pending patty slide, auto-loading patty staging area, and minimal parts, this broiler maximizes output, reduces costs, and streamlines daily maintenance.

- Independently controlled infrared burners on top and bottom, tube burner on the bottom
- Automatically feed any sized patty from stack
- Patent-pending cost-saving patty slide
- Split-loader design allows operators to cook even during routine maintenance

Deliver the authentic “true char” flavor customers love with the Prince Castle Flame King Broiler. It delivers **optimized IR burner control along with easily removable components** helping your crew deliver consistent, great-tasting food with a simple-to-clean operation.

### Four-Lane Continuous Feed

Cook any sized patty in any lane with this versatile broiler that **averages up to 85 burgers per lane/hour**. It also includes an automated split-loader staging area that can hold up to 36 frozen products.

### Infrared Burner Technology

Maintenance free, IR burners provide **consistent heating for improved product quality** with 80% less temperature variation lane-to-lane.

### LED Touchscreen Display

The handy LED touchscreen enables quick adjustments and **simple menu navigation to ease crew engagement and reduce training needs**.

### No Release Sheets

Patent-pending patty slide design eliminates costly consumables, **saving up to \$600 a year** plus reduced crew labor cleaning time.

### Crew-Proof Cleaning

Fewer components mean **faster and easier cleaning**. Our crew-proof part design ensures assembly its right every time.

### Juice Management System

Lab tests prove that our unique broiler design, which holds the patties in their natural juices, delivers **larger, juicier burgers**.
