

CTS-Series Mini Slim-Line Vertical Contact Toaster

Introducing Prince Castle's CTS Mini Slim-Line Vertical Contact Toaster. A revolutionary new design that increases toasting versatility, maximizes space savings, and provides perfect caramelization with the convenience of vertical contact toasting.

Prince Castle's unique two-level platen design allows the operators to toast thicker bun crowns and thinner bun heels at the same time. The variable speed motor is adjustable to allow for toasting speeds up to 2200 buns per hour.

The Prince Castle Advantage:

- Slim-Line design saves up to 30% more counter space
- Adjustable toast times from 9-40 seconds to customize products
- Digital display and electronic controls make for precise and repeatable settings
- Available in wire and silicone belt (at 120V)
- Simple to remove conveyor makes cleaning quick and easy
- Dual compression adjustment knobs allow for maximum product flexibility
- Accommodates all buns up to 5.5" in diameter
- Heat Shield for cooler surfaces ensuring safer operation
- Durable stainless steel construction makes the product easy-to-clean and maintain

All Prince Castle Slim-Line Toasters come equipped with our Release Sheet Kit consisting of a Stainless Steel Clamp and Two Non-Stick Teflon Sheets to protect against bun sticking.
