

Fast. Safe. Consistent.

From fries to filets, Prince Castle has a fry basket to fit your menu. Mesh design ensures even frying for great taste, while nickel-plating adds durability. Reinforced handles offer safe use, with optional plastisol coating. All models are UL Listed with NSF/ANSI 2 standard.

Built to Take the Heat

Engineered with rugged nickel-plated wire for long-lasting performance.

Fry Safer, Serve Faster

Reinforced, extended handles keep hands away from heat.

Crisp, Even Results Every Time

Precision mesh design ensures optimal oil flow and even frying for consistently delicious food.

Safe & Easy Frying

- High-quality baskets designed for safe and efficient frying
- Ergonomic build simplifies handling and draining
- Built for demanding commercial kitchens

Built to Last

- Rugged construction engineered for daily, heavy-duty use
- Nickel-plated finish resists corrosion and wear
- Durable design reduces replacement frequency and cost

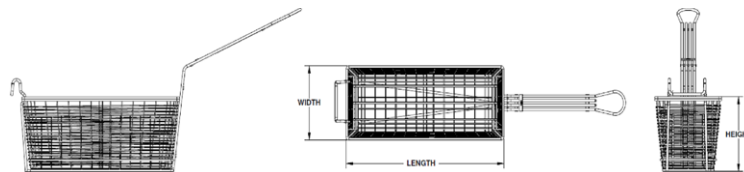

Consistently Great Results

- Evenly spaced wire mesh for better oil circulation
- Ensures crispy, evenly cooked food every time
- Consistent performance for better tasting food

Versatile Fit & Custom Options*

- Available in sizes compatible with various fryer models
- Some models are available with plastisol-dipped handles for added comfort
- Flexible configurations to meet your kitchen's needs

*Only front hook options available
