

Flexible Holding for Evolving Kitchens.

Modular Design configurable in horizontal and vertical form.

Efficient Power Usage run up to 8 Modules on a single circuit.

Precision Holding batch cooking allows for labor efficiencies and faster service.

Freedom to Configure

- Each module allows for independent control of product temperature and hold time, ideal for diverse menus and multiple dayparts.

Scalable Design

- Expandable in single-unit increments, both horizontally and vertically, to support existing needs and future menu expansion.

Consistent Holding Temperature

- Extend holding time without drying out products while preserving required internal temperatures.

Power Efficient

- Supports up to 8 total modules on a single 110–240V circuit, maximizing efficiency while minimizing electrical demands.

Flexible Configuration

- Configure modules horizontally or vertically to suit specific installation requirements.

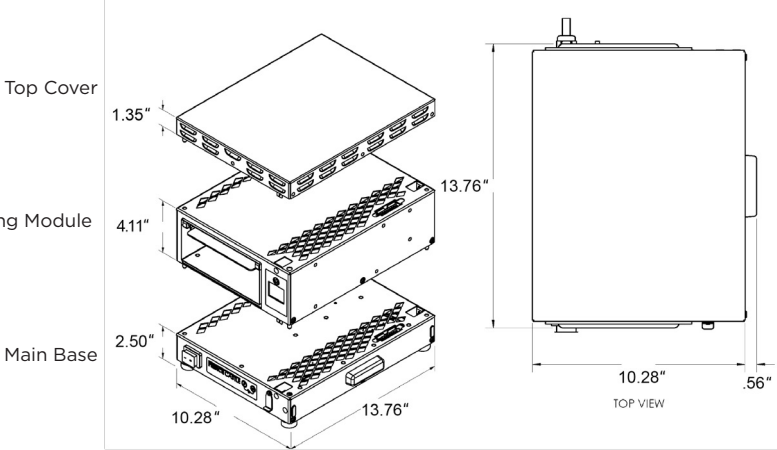

User-Friendly Programming

- Includes a PC application for easy menu programming and upload via a conveniently accessible USB port.

Operational Efficiency

- Seamlessly switch between single-sided and pass-through options to match evolving workflows.

Prince Castle’s modular holding bins offers unmatched flexibility for evolving menus and **tight kitchen footprints**. Modular, individually heated bins connect to a master base, enabling horizontal and vertical expansion while maintaining precise, food-safe temperatures. **Scalable by design**, it ensures **consistent quality** as your operation grows, so every meal is served at its best.

Technical Specifications

Modular Holding Bin

Warranty	Backed by a 1-year parts and labor warranty for peace of mind and reliable support.								
Model Number	Description	Dimensions (cm)	Voltage		Watts	Hertz	Plug	Region	Shipping Weight
MHB100MB-NA	Main Base, (Includes top cover)	10.28" (26.11) W x 2.50" (6.35) H 13.76" (34.95) D	120	115-1450	50/60	NEMA 5-15P	North America	9.5 lbs (4.3 kg)	
MHB100MB-CE	Main Base, (Includes top cover)	10.28" (26.11) W x 2.50" (6.35) H 13.76" (34.95) D	200-240	115-1450	50/60	Shuko CEE 7/7	Worldwide	9.5 lbs (4.3 kg)	
MHB100EB	Expansion Base (Includes top cover)	10.28" (26.11) W x 2.50" (6.35) H 13.76" (34.95) D	120	0	50/60	-	North America	9 lbs (4.1 kg)	
MHB100EB-U	Expansion Base (Includes top cover)	10.28" (26.11) W x 2.50" (6.35) H 13.76" (34.95) D	200-240	0	50/60	-	Worldwide	9 lbs (4.1 kg)	
MHB100HM1	Pass through Holding Module, Modular (Includes one pan cover)	10.28" (26.11) W x 4.11" (10.44) H 13.76" (34.95) D	120	180	50/60	-	North America	10 lbs (4.5 kg)	
MHB100HM1-SS	Single Sided Holding Module, Modular (Includes one pan cover)	10.28" (26.11) W x 4.11" (10.44) H 13.76" (34.95) D	120	180	50/60	-	North America	10 lbs (4.5 kg)	
MHB100HM2	Pass through Holding Module, Modular (Includes one pan cover)	10.28" (26.11) W x 4.11" (10.44) H 13.76" (34.95) D	200-240	115-180	50/60	-	Worldwide	10 lbs (4.5 kg)	
MBH100HM2-SS	Single Sided Holding Module, Modular (Includes one pan cover)	10.28" (26.11) W x 4.11" (10.44) H 13.76" (34.95) D	200-240	115-180	50/60	-	Worldwide	10 lbs (4.5 kg)	
Top Cover	Included with Main and Expansion Base	10.28" (26.11) W x 1.35" (3.43) H 13.76" (34.95) D	-	-	-	-	-	-	

Pans not included.

Accessories	
541-1095-1s	1/3 Size x 2.5" Single Handle Pan (1 each)
541-442s	1/3 Size x 2.5" Dual Handle Pan (1 each)

Pans not included with the purchase of Modular Holding Bins
