

# Double Your Food's Hold Times.

**Patented multi-zone temperature controls** keep fried foods crispy and cooked foods tender.

**2X hold times** with proprietary dual-zone temperature controls.

**Used by QSRs Worldwide**  
Battle-tested to perform in the toughest kitchen environments.

**Timers by each pan** indicate when to cook more and ensure first in first out.

### Preserve Food Quality and Reduce Waste

- Double your food's hold times with our patented multi-zone temperature controls, creating the perfect holding environment for each food type.
- Multi-zone temperature controls create the perfect holding environment for each food type.
- Ensure your crew use first in first out method with centrally located timer bars, eliminating food waste.
- Never run out of food during peak rush hours with cook more alerts.

### All Day Menu Flexibility

- Keep your cooked foods tender with metal lids or your fried foods crispy with no lids.
- 6 day parts, 25 menu pre-sets.
- Easy-to-update recipe names, heater temps, cook times and day parts.
- USB port included for easy upload of new menus.
- Ethernet connectivity for connection to Kitchen Management Systems (KMS) and compatible with Xenial Chef.™

### Durable Construction

- Minimize grease and heat migration with durable stainless steel construction.
- Enjoy longer product life cycles with an independently sheltered control board.
- Sturdy metal lids and pans included.

### Crew-Friendly Operations

- Eliminate language barriers with easy to use digital display.
- Single sided and pass-through options available for efficient operations.

### Easy To Clean

- Rackless design is easy to clean and maintain with a simple daily wipe-down.
- No difficult-to-clean crevasses or corners.
- Easy trouble shooting and servicing with error codes.

### Easy Menu Updates

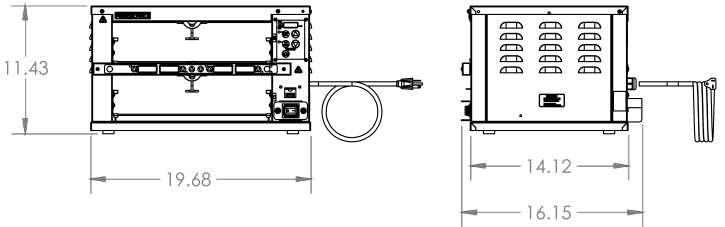

- Update recipes and menus in a PC application and upload via a conveniently located USB port, or configure directly on the holding bin.

*\*Patent applies to Extended Holding Bins that are 3 or 4 pans wide.*

# Extended Holding Bins

## EHB Series EHB22, EHB23, EHB24, EHB34, EHB42

Whether it's crispy chicken or juicy burgers, you can now hold your food up to **2X longer** without sacrificing quality or flavor, thanks to Prince Castle's **patented multi-zone temperature controls**.

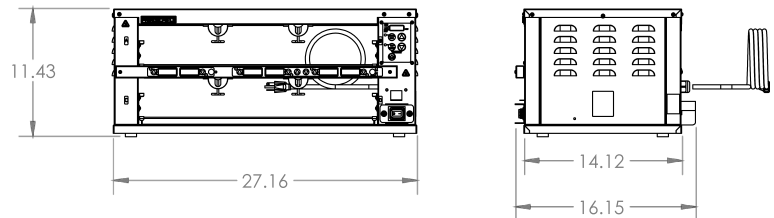

### Technical Specifications

#### Extended Holding Bin 2x2 (EHB22)

Product Category	Extended Holding Bin (EHB)
Product Dimensions	19.7"L x 16.1" W x 11.4"H (500mm x 420mm x 290mm)
Bin Capacity	(4) 1/3 Size Pans
Exterior Construction	Stainless steel with anti-slip legs
Unit Weight	35 lbs (16 kg)
Pans/Lids	EHB22 series bins come with 4 pans and 2 lids included

Shipping Weight	64 lbs (29 kg)
Warranty	1-Year: Parts & Labor including on-site service
Agency Listing	 

Model Number	Description	Bin Design	Voltage	Watts	Hertz	Plug	Region
